Q: We understand that EFED is in the process of revising their assessment procedures to align with recommendations from the 2013 NAS report; is there an opportunity to be involved in this process?

Please see Kelly's response below. Can you check with EFED about the BE schedule?

Hi Yu-Ting, I just wanted to check in on this response to the humane society, because we mention the methomyl/carbaryl BE's

Good morning Yu-Ting,

FEAD suggested that I run this Humane Society response by you, because it includes a mention of the methomyl and carbaryl BE's, see highlight below. We developed this answer back in early January, and we may need to re-word.

Please let me know your thoughts when you get a chance.

Thanks,

Garland

Hi Anne - as follow up to a call we had with the HSUS earlier this year, we are now getting back to them on the EFED specific questions. The first answer was developed with/approved by Ed Odenkirchen. The second was provided by Anita. Just wanted to run this by you quickly before sending on to HSUS.

Thanks!
